OUTLINE India
Social Impact through Data

Impact Assessment for Going To School
Bihar and Jharkhand

Our Latest Project

We undertook the baseline data collection for Going to School's (GTS) school program in the states of Bihar and Jharkhand. The study is being conducted with secondary school students using self-administrated questionnaires prepared and provided by GTS. These schools are spread across 16 districts in Bihar and 24 districts in Jharkhand. An estimated reach of this program is upto 40,000 students.

40 districts, 40,000 students!

Digital Data Collection

Data Collection: Going Digital

Nishmeet was invited for a one-on-one interview with **SurveyCTO** - an offline digital data collection platform where he talks about his experiences of using **SurveyCTO** in a recent research project on forced child labour in Jharkhand. Read more..

Farmer Suicides in India

India's Agrarian Distress

Nishmeet and Aashay's paper delve into reasons for rising farmer suicides in India. Given the agrarian base, the recorded rate of suicide in the last 15 years being roughly equivalent to one farmer suicide per day call for this re-examination. Read more..

India CSR Summit 2016

Outline India participated as an exhibitor at the recently concluded India CSR Summit in BCEC, Mumbai. The summit was a platform for corporates and social enterprises to interact and showcase their work. Prerna was invited to the summit as a Panel member and spoke in the session entitled "Women Empowerment through

Stall Number 3

CSR". The Summit was held on 27th & 28th September.
