

We are very excited to be soon launching 'TYM - Track Your Metrics', a self-reporting tool for the development sector targeted towards not-for-profits and funders that will make data collection and impact assessment easier.

## TRACK YOUR METRICS

Automate Surveys | Gather Data | Assess Impact

Track Your Metrics allows you to formulate surveys by selecting questions from our master question bank spanning across the education, health and WASH sector!

### Survey Formulation

**Design effective surveys using questions from our question bank**

### Data Visualisation

Generate charts and graphs

### Data Collection

Gather data on your android devices in remote offline areas

### Report Generation

Access templates for reporting

---

## Achievements
