

UPDATA | AUGUST NEWSLETTER 2023

Dear Ankeshita Caleb,

We are thrilled to present Outline India's August 2023 Newsletter, a journey into the realm of impact and inspiration.

This edition brings to you remarkable stories that celebrate resilience, talk about leaps in terms of social progress and improvement in social returns.

We bring to you these stories of human triumph and innovation. Discover the indomitable spirit of "Dilli ke Auto Valle," a touching narrative of determination and witness the profound impact of **climate change**.

Our dedicated field workers take center stage, as their unwavering efforts pave the way for progress and inclusivity.

-Team OI

BRINGING AN EQUITY LENS TO CLIMATE INVESTMENTS IN INDIA

Location : Maharashtra, Uttar Pradesh, Bihar & Andhra Pradesh

Outline India, in collaboration with our partner, The Bridgespan Group, is undertaking a “**State of the Sector**” analysis to highlight the voice of **vulnerable communities** as it intersects with **climate change**, and proposes meaningful innovations to meet their needs.

This research is rooted in the understanding that **climate change** is accelerating by the year and has already exacerbated pre-existing vulnerabilities of the most marginalized communities. With this research, we hope to uncover some of these effects in the sphere of **agriculture** and aim to understand the effects of **climate change** on **smallholding farmers (especially women and SC/ST farmers)**, as well as identify potential solutions to address these challenges.

DILLI KE AUTO VALLE

[WATCH](#)

Gather around for an eye-opening glimpse into the lives of "Dilli ke Auto Valle", as you watch their stories, we witness firsthand the impact of **climate change**, the summer slump and the soaring CNG prices, leaving them to wonder, "How can we work?" and their hopes for **better governance** and attention to these issues.

So, hop on board as we traverse the bumpy roads with Dilli ke Auto Valle during the rainy season and explore from the angle of **good policy governance requirements**.

OI ON FIELD

WE ARE YOUR EYES AND EARS ON THE GROUND

Empowering Social Impact through **Data** Collection, **Impact Assessment**, and **Monitoring & Evaluation**.

At OI we believe that every **data** point has the potential to revolutionize decision-making. By meticulously collecting and analyzing **data**, we illuminate the pathways to impactful change.

From the **grassroots to global scale**, we measure and evaluate the effectiveness of interventions, enabling stakeholders to make informed choices and optimize resources. We ensures that our **data**-driven solutions foster sustainable growth and transform lives.

IN OFFICE TRAINING

PIONEERING THE USE OF DATA FOR SOCIAL IMPACT

Through a combination of **theoretical sessions** and **practical exercises**, the **field staff** are trained to understand the intricacies of the **data collection process**, the specific objectives of the project, and the ethical considerations involved.

They are familiarized with **data collection instruments, protocols, and techniques**, ensuring that they are well-prepared to interact with respondents and communities sensitively.

This **pre-data collection training** not only empowers the field staff but also ensures the **quality and reliability** of our **data**, laying a strong foundation for **successful and impactful outcomes**.

HRIDYA VIJAYAN - QUANTITATIVE RESEARCHER

Hridya Vijayan commenced her journey with **Outline India** as a **Research Assistant**. Through unwavering dedication, she's now flourishing as a **Quantitative Researcher**, making her mark in the field.

Her skill-sets are -

Tool coding in **CAPI** platforms, **data** cleaning and labeling, and **data analysis**, knowledge in **STATA**.

Her current focus lies on a **Bridgespan Group** project. She is also excited about the opportunity to contribute to the **World Bank** project in the coming days.

With a background in psychology, she deeply values mental health and finds solace in watching movies and savoring her beloved songs.

OUR NEXT FOOTSTEPS

We will be working across **Andhra Pradesh, Maharashtra, Assam, Uttar Pradesh, Delhi, Haryana, Rajasthan, and Kerala.**

Reach out to us if you -

- 1- You have extensive experience working in the field and managing **data** collection exercises - **Field Manager, Project Manager, and Field Coordinator applications** are welcome!
- 2- Would like to partner with us in one or more states on the **data** collection facet
- 3- Speak the local language and would like to work as a project consultant
- 4- Understand how to build research designs and have a good understanding of monitoring and evaluation
