

NEWSLETTER

UPDATA FEBRUARY 2023

Dear ,

While our field training and deployments engage with stakeholders, our research team gears up for the flood of data to enable our partners in making data-backed decisions. Enabling CSR heads and Sustainability chiefs in scaling up their ESG efforts, assisting impact investors in tracking their portfolios, and providing industry leaders with the insights they need are just some of the ways we ensure Social Impact through Data.

As the financial year moves through its final quarter, we enable our partners in their ESG compliance via our Monitoring and Evaluation efforts and planning development strategies for the next phase. We continue to provide a comprehensive understanding of how organizations can track, enable and scale their development efforts in the most effective manner. This, and more, help create the framework for a better tomorrow.

EVENTS

INDIA UK ACHIEVERS AWARD

Outline India founder, Perna Mukharya, was honoured with the **India UK Achievers Award** in January 2023, in the Entrepreneurship category. Hosted by the **NISAU**, in partnership with **British Council**, the award recognized the **work of Indian alumni who have gone on to achieve excellence in their field**. Outline India has worked in more than 60,000 villages, covering over 5.5 million enabling partners to track change, measure impact and enhance social development in the data collection space. Other 'Outstanding Achievers' include Politician Raghav Chadha, Actor Parineeti Chopra and Journalist Marya Shakil.

CLINTON GLOBAL INITIATIVE

Outline India was a part of **Former US Secretary of State Hillary Clinton's** visit to IIT, Gandhinagar as part of the Clinton Global Initiative. The visit, part of her 2-day India tour, included interactions with **CGI** commitment makers. She interacted with the students and faculty of the institute and had a discussion with invited partners regarding social development issues.

Secretary Clinton spoke about the importance of **introspection** while being in leadership roles and navigating living in a fast-paced world with information as well as misinformation. She also advised to periodically shut off from social media and limit digital distractions.

SUSTAINABLE ENERGY AND INDIA'S WAY FORWARD

India had set an ambitious target to achieve a capacity of **175 Gigawatt (GW)** worth of renewable energy by the end of 2022, which will further expand to **450 Gigawatt (GW)** by **2030**. The installed Renewable energy capacity (including large hydro) has increased from **76.37 Gigawatt (GW)** in March 2014 to **150.54 Gigawatt (GW)** in November 2021, i.e. an increase of approximately **97%**.

GLIMPSE INTO TEAM OI

SWATI PANDEY

Swati joined our organization as a **Quantitative Researcher** and has been a steadfast member of our team. Her attention to detail with numbers, streamlining project execution and being a main point of coordination between field teams, researchers, and clients have been integral to projects for the **World bank, ADB, and WRI**.

“Interacting with Swati has always been informative, precise, and insightful. Her inputs on the field data and project strategy have been a welcome addition to the work done by Outline India” - Project Partner.

“Swati has always been there to help guide us with the way forward and efficient execution towards project milestones. Her patience has helped many field members to better understand the nature and scope of the required groundwork.” - Satish, Bihar
